### Loan portfolio & customer resources

December 2023 (M.€)	As reported by BPI	Adjustments	BPI contribution to CABK Group (BPI segment)
Loans and advances to customers, net	29 540	(109)	29 430
Total customer funds	37 905	(4 206)	33 699

### Profit & loss account

The difference between the results disclosed by BPI and its contribution to the group corresponds to consolidation adjustments derived from intragroup eliminations, reclassifications to standardize presentation criteria in the income statement and certain remaining adjustments from the business combination.

Additionally, BPI contribution to CaixaBank Group results is broken down into BPI segment and Corporate Center segment, the latter including the contributions from BFA and BCI.

### Loan portfolio & customer funds

The difference between BPI reported figures and those reported by CaixaBank for the BPI segment can largely be explained by:

- In loans and advances to customers, net, consolidation adjustments (elimination of intra-group balances);
- In total customer funds, by the liabilities under insurance contracts and their fair value adjustments at 31 December 2023, as generated by the business combination, which have been reported in the banking and insurance business segment of CaixaBank following the sale of BPI Vida to VidaCaixa de Seguros y Reaseguros.

<sup>1)</sup> Consolidation, standardisation and net fair value adjustments in the business combination.

### Reconciliation of the profit & loss account structure

- The European Securities and Markets Authority (ESMA) published on 5th October 2015 a set of guidelines relating to the disclosure of Alternative Performance Measures by entities (ESMA/2015/1415). These guidelines are mandatory to issuers with effect from 3rd July 2016.
- In addition to the financial information prepared in accordance with the International Financial Reporting Standards (IFRS), BPI uses a set of indicators for the analysis of performance and financial position, which are classified as Alternative Performance Measures, in accordance with the abovementioned ESMA guidelines. The information relating to those indicators has already been object of disclosure, as required by ESMA guidelines.
- In the current presentation, the information previously disclosed is included by way of cross-reference and a summarized list of the Alternative Performance Measures is presented next.

The following table shows, for the consolidated profit & loss account, the reconciliation of the structure used in this document (Results' Presentation) with the structure adopted in the financial statements and respective notes of the Report and Accounts.
